Dear Dr. Zhang,

It was indeed very nice meeting you in Sapporo and I enjoyed the good discussions we had. I hope to meet you again in Shanghai in the Fall of 2001. Enclosed is a very preliminary draft of the Program we are planning. Following your suggestion we shall apply for support to Dr. Gao by the Phillip Morris Foundation. You told Drs. Zhang, Zanker and me that this Foundation is being reorganized and is likely to be able to provide some support to initiatives like this one.

The support requested would be exclusively for expenses incurred by Dr. Gao in China, namely local expenses in Shanghai and travel in China by invited Chinese participants. Dr. Gao would send you a formal application; I intend to assist him in its preparation. To this end, please let Dr. Gao, Dr. Zhang and me know how the application should be prepared. For example, in addition to the precise budget and the Symposium Program (eg 2nd draft) what would be necessary? Please let us know so that Dr. Gao can prepare a good competitive application. Thank you. Best personal regards.

Sincerely yours,

Enrico Mihich, M.D.
